

Network Systems Integration & Test Engineering Lab Operations Opportunity

Cisco Systems, a truly global company and one of Fortune magazine's "Top 100 Global Companies" for which to work, are now recruiting for an internship leading to a potential permanent position. This is an exceptional opportunity for articulate and ambitious students or graduates to gain experience within one of the most recognised companies in the technology and internet industries.

Could you maintain \$30m worth of networking equipment?

We are looking for candidates with:

- A practical background in IP networking
- CCNA certification is an advantage
- Practical hands-on experience with home and/or PC/UNIX networking, including cabling, construction and configuration
- Experience with Microsoft applications – Excel, Word, PowerPoint, Outlook and web page creation
- Good written and oral communication skills
- A breadth of knowledge and experience with scripting and programming in general.
- Motivation to follow Cisco certification paths from Associate to Professional level or even CCIE

So, if you hold an EU passport and fit the profile then Cisco wants to hear from you!

We will be presenting at your University, please contact your Careers Advisory Service to find out when!

Location: The position is based at Cisco's Reading offices.

Salary: Competitive

Application Deadline: Monday 10th December 2007

To apply: Please send your CV, covering letter, and application form explaining your interest in this role, and any previous networking experience giving examples where relevant to nsiteuk-internship@cisco.com, with the subject "Cisco Internship Application". Alternatively hand your CV, covering letter, and application form to one of our engineers when we come to visit your University.

An understanding of networking is essential. If your application is successful you will be asked a series of short questions linked to networking prior to being invited to interview. **We urge you to carefully consider if your skill set matches our requirements before applying.**

Note - Late applications, or those without a covering letter and application form will not be considered.
